LOCAL BRIEFS.

Business in the Police Court is extremely dull.

The February number of *Harper's Magazine* is at Dwyer's.

T. E. Jones & Co. received yesterday: Germania bullion, \$4,985.12.

The Mammoth continues to send out steady shipments of ore from Tintic.

The partnership existing between Drs. Richards & Bower has been dissolved.

Whether are we drifting? Twenty-four hours pass, and not a single arrest is made by the police.

McCornick & Co. received yesterday, Bannock silver, \$3,130; Hanauer bullion, \$2,640. Total, \$5,770.

Wells, Fargo & Co.'s shipments yesterday were: Base bullion, \$2,100; fine bars, \$1,473.99. Total, \$3,573.99.

A. J. Cunningham will commence the erection of his new mansion on First Street as soon as the weather admits.

The front of the new Cullen building is slowly assuming shape. The workmen are daily watched by admirers of the new structure.

GILSON & FRANKS have dissolved their detective partnership. Mr. Franks will establish a bureau in the same building, having his office with H. K. Watrous.

The Supreme Court cited Commissioner Snoot to appear before them Friday, the 28th, to show cause why his appointment should not be revoked, and then adjourned until Wednesday, February 2d.

Mr. Raymond and some twenty other Templars of Honor, including the grand officers of this district, went to Ogden last evening on a fraternal visit to the lodge at that place. They were to be met by a detachment from Evanston, and a general reunion was to ensue.

T. J. SPEKMAN, of Eagle Rock, Idaho, yesterday purchased from Messrs. White & Sons, the butchers, 400 head of steers. To this number he has added about 100 more and will ship all of the animals to Eagle Rock, from which point they will be sent into the surrounding country.

The Golden Hours hop, given last evening in Calder's hall, although not so numerously attended as some of those previously given, was, nevertheless, a very pleasant affair. Some twenty couples were present, and a well selected programme of dances was gone through with.

Dr. H. J. Faust has received a circular announcing that stockmen and their families going to Denver to attend the International Range convention next month, will be sold round trip tickets for one fare, good from February 1st to 28th. A request for a large attendance by Utah stockmen is also made.

A commercial man who has just returned from a trip northward speaks in no complimentary terms of the Utah Northern for having no station at Willard, a town of 700 inhabitants, near Brigham City. He stopped off there on business and there was not so much as a shanty near the track in which he might rest. After suffering in the cold for some hours, he begged shelter from a private family, who informed him that the railroad company had often been tendered land free for a station house, but they paid no attention to the offer.

Dr. Faust's Lecturing Tour.

Dr. H. J. Faust returned from his southern tour last evening, having been as far down the road as Mantle. During his absence he delivered an even dozen lectures on "General Economy, and Better Breeds of Stock in Particular," in the different settlements between Salt Lake and the capital of Sonora. He reports all the cities and villages that he visited as being in a most prosperous condition, and says that a great majority of the people take but little interest in the bill now pending in Congress. Large quantities of wheat are being moved, especially in Sonora, and the Doctor says that much more interest than formerly is being taken in the improvement of stock. Wheat was quoted at 60 cents cash in Neph on Tuesday last.

THE COMING CONVENTION.

The International Range Association Meeting.

The convention of the International Range Cattle Association will meet in this city on February 8th, and it is expected that the attendance of cattlemen will be very large. Information has been received from several of the States and Territories, showing that the attendance will be much larger than last year; and it is expected that not a few delegates will be present from Mexico and British Columbia.

Preparations are making now for the proper reception of the delegates and visitors, and we trust that the cattlemen of Colorado will be present in large numbers. Not only should the people of Denver provide entertainments for these visitors, but also the cattlemen of the State should be here in large numbers so as to make this expression of welcome all the stronger. It, comparatively speaking, only a few Colorado cattlemen should attend the convention, it would appear to the visitors as though the Colorado men cared but little about them and took but little interest in the work of the association. We have not the least doubt that there will be a large representation of cattle growers; but we wish to lay emphasis upon the importance of bringing all the cattlemen in the State, as far as possible, to the convention. It does not matter much whether a man is a delegate or not. He should come anyway. There will be many cattlemen present from outside of Colorado who will not be delegates. They appreciate the importance of the work of the convention, and so they will come in order that, as cattlemen, although not as delegates, they may exert their influence.

The question of providing protection for range cattle against contagious diseases is one to which, doubtless, the convention will give careful attention and consideration. It is a most important subject, and it is possible that upon the work of the convention may depend the safety of the cattle interests of the range country. This alone should draw hither a large number of cattlemen from all parts of Colorado.

Another subject upon which cattlemen desire information is the scheme for the establishment of stock yards near St. Louis. This matter will undoubtedly be fully discussed, and it may be that the convention will take some action in regard to it. It is also an important subject for even though our cattle should escape the ravages of Chicago pleuro-pneumonia, they might still fall into the almost equally dangerous clutches of the Chicago packers and shippers.—Denver News.

New Telegraph Quarters.

J. J. Dickey, the Western Union magnate, spent a few hours in town yesterday, and spent those few hours with Mr. Scott, the local manager, looking up a new site for the telegraph company. The lease on the present quarters expires at the end of February, and Mr. Dickey was shown the Barratt Bros. building, the building recently occupied by D. M. Osborne and Co., and one or two other places. He took his impressions back to Omaha with him, and will communicate his decision later. It is to be hoped that the removal will be to some place a little less like a rocky than the one the company now inhabits; the ramshackle, curiosity shops in which the Western Union has been content to abide in the past, has been a disgrace to that institution.

To the Tomb.

The funeral services over the remains of the murdered Homer J. Stone took place yesterday, at the residence of Mrs. Howard, in the Eighth Ward. Rev. Mr. Putnam officiated, and a selected quartette furnished some very sweet and pathetic music for the sad occasion. There was an extraordinary large attendance at the house, and the funeral cortege that followed the remains to their last resting place in Mt. Olivet Cemetery, was one of the largest seen for some time. All the arrangements were in the best of taste, and nothing was lacking, save the attendance of the relatives of the deceased.

Cure of Pneumonia.

Hess Road, Niagara Co., N. Y., March 24, 1886.
About a year ago I was taken with a severe pain in both lungs. I was first attacked with a violent chill, then a dreadful pain and then a cough accompanied by considerable fever. It looked very much like a bad attack of pneumonia. A friend of mine procured five Atkinson's Chestnuts. One he put under each arm, one under each shoulder blade, and on my chest close around my throat. In a few hours the cough ceased, the pain gradually abated and I broke out in a profuse perspiration. I fell into a profound sleep, and the next day was almost well. I wore the chestnuts eight days afterwards, and have never had any trouble since.

ONE MORE MISS.

An Old Man Escapes on an Unusual Plea.

John Daniel Lang, or Lange, an aged and infirm tailor of the Fifteenth Ward, was arrested yesterday, and taken before Commissioner McKay on the prevailing charge. The complaint charged unlawful cohabitation with Mrs. Lang and Jane Doe, and when asked to plead, the defendant replied: "Mr. McKay, I have only one wife, and have had only one for twenty-six years."

COMMISSIONER—You plead not guilty, then?

MR. LANG—Yes, sir.

ELIZABETH CONNELLY (Jane Doe), of Brighton, was first sworn, and told the following story: I live in Brighton, Salt Lake County; I know the defendant; I was married to him about ten years ago, but he has never lived with me; when I have milk and butter to sell he takes it to the city for me; I have a farm in Brighton; there is an old house out with four rooms in it; I live alone; I was never married before; I never lived in Mr. Lang's house; I own part of the farm; I bought it from Mr. Adamson. Mr. Lang goes out to work when he has got nothing to do at his business as a tailor in the city; sometimes he works a week digging and planting the garden; it is three miles; he don't stay all night; he was away south about two years, and came back a year ago; he has not stayed there since; I never had a divorce from him; never lived with him since we were married; he gives me a little tea, coffee and sugar, clothes, etc., as I need; I have never had any children; he takes his dinner with him, but never eats with me, except he comes in the house when the sun is hot, and eats his dinner; I have lived there about ten years; was married thirteen years ago.

The commissioner asked the witness whether she knew Mr. Lang's first wife, but could obtain no satisfactory answer.

Mrs. JONES, a daughter of the first wife, testified that her father had merely been sealed to Mrs. Connelly; he did not and had not lived with her.

To Mr. Moyle, who questioned her on the point, she said: A man and woman, according to my religious belief, may be sealed when one is dead; two living persons may be sealed and still not live together; this is when they do not marry for this life; this latter is the understanding of my father's relationship with the last witness; my father has always lived with my mother, and when he goes to the farm he takes his dinner with him.

Mrs.
